## Comfort Adjustment Services

If you find your new comforter or pillow needs adjustment after a few months, we will be happy to add or subtract down for your optimum comfort. Or if your sleeping needs change - perhaps you've moved to a different climate - we can adjust your bedding so it's perfect once again.

We charge only for the additional down added. We cannot remove down from a comforter, only add down. For pillows, we can add or subtract down and any down removed during the adjustment process would be returned to you. Our adjustment service is available at any time for up to one year from the date of purchase. All adjustment orders are shipped back to you within 10 days of our completion of your adjustment. Please call 1-800-438-2431 to speak with a Customer Service representative about this service.

Please note: Due to their personalized nature, custom-adjusted items are not returnable.
